Summary

Full-Stack Developer (BCA 2026) with hands-on experience building and deploying production-grade MERN stack applications. Designed and shipped **HireHub**, a full-stack job portal featuring OCR based resume parsing, JWT authentication, and 20+ RESTful API endpoints. Proficient in React.js, Node.js, Express.js, MongoDB, and MySQL. Strong foundation in MVC architecture, REST API development, and end-to-end deployment. Immediately available for Full-Stack, Frontend, Backend, or SDE roles — full-time, internship, or remote.

Technical Skills

Languages: Java, JavaScript (ES6+), TypeScript, Python, C, SQL

Frontend: React.js, HTML5, CSS3, Responsive Web Design

Backend: Node.js, Express.js, RESTful API Development, JWT Authentication, MVC Architecture

Databases: MongoDB, MySQL, Mongoose ODM, MongoDB Atlas

Tools & Platforms: Git, GitHub, Postman, VS Code, Vercel, Render, Java Servlets

AI-Assisted Development: Prompt Engineering, Generative AI, ChatGPT, Claude, Cursor, Lovable, Grok

Projects

HireHub — AI-Powered Job Portal | *React.js, Node.js, Express.js, MongoDB, JWT, Tesseract.js* Jan 2026 – Present

- **Live Demo:** *hirehubx.vercel.app* | **GitHub:** github.com/durgalanka206-lab/hirehub
- Architected and deployed a full-stack MERN job portal with **role-based access control** across 3 user roles (candidate, recruiter, admin); implemented JWT authentication and **bcrypt** password hashing for secure session management.
- Built an OCR-based resume parsing pipeline using **Tesseract.js** and **pdf-parse** to extract and index candidate skills from uploaded PDFs; engineered a fuzzy matching algorithm (**Levenshtein** distance) to score candidate-to-job relevance across **35+ active job listings**.
- Designed and implemented **20+ RESTful API endpoints** with Express.js covering job CRUD, candidate management, and admin analytics; integrated **Nodemailer** for automated transactional email notifications on application status changes.
- Delivered a responsive React.js UI with a 3-step resume upload wizard, dynamic job filters (Full-time / Contract / Remote), and an SVG analytics dashboard; deployed frontend to **Vercel** and backend to **Render** with **MongoDB Atlas**.

Student Management System | *Java, Servlets, SQL Server, HTML5, CSS3, MVC Architecture* 2025

- **Live Demo:** *student-management-system-2026.vercel.app* | **GitHub:** github.com/durgalanka206-lab/student-management-system
- Developed a full-stack student records application implementing **complete CRUD operations** using **MVC architecture**, cleanly separating business logic, data access, and presentation layers for maintainability and scalability.
- Built a Java Servlet backend with SQL Server integration for reliable relational data persistence; designed a responsive HTML5/CSS3 frontend with database-driven dynamic views, demonstrating proficiency in **Java web development and SQL**.

Developer Portfolio | *React.js, TypeScript, Express.js, Nodemailer, Vercel* 2025

- **Live Demo:** *lankadurga.vercel.app* | **GitHub:** github.com/durgalanka206-lab/portfolio
- Built a full-stack portfolio using **React.js** and **TypeScript** with an Express.js backend; implemented **OTP-based email verification via Nodemailer** for secure contact form submissions, demonstrating end-to-end ownership of design, development, and deployment.

Education

Ideal College of Arts and Science

Bachelor of Computer Applications (BCA)

SGPA: 9.2 / 10

Kakinada, AP

2023 - 2026

Certifications

Generative AI for Software Development — IBM SkillsBuild (2025)

Data Analytics Job Simulation — Deloitte via Forage (Apr 2026)

Introduction to Cybersecurity — Cisco Networking Academy (May 2026)

Introduction to Cloud — IBM SkillsBuild (May 2026) | **SQL (Basic)** — HackerRank (Feb 2026)

Power BI for Beginners (May 2026)
